TAKE IT EASY! Making Recognition Practically Effortless!

THE COOK' S CORNER

EASY, PERSONAL RECOGNITION WITH momento™

It is a generally accepted fact that employees who are regularly recognized are more productive, motivated, & engaged. And, studies show that making that recognition personal & specific is even more effective. MOMENTO cards allow rewarding at a moment's notice. These are multiple price point cards with your logo, available in many different sizes & designs that you order & keep on hand. Then when an event deserving of recognition occurs, when a goal is met, when someone works late to make sure that project got done, when an employee goes above & beyond, you add a personal comment & create a face-to-face recognition moment. The recipient then chooses a gift from your custom MOMENTO website.
